

AHMED ALI 9552954	When lupins are treated with enzymes during feed manufacture, the nutritional value of the feed for broiler chickens is improved so they grow better and stay healthier
DANIEL ANDREWS 9730109	Cloning and characterisation of the receptor for the marine cytomegalovirus (MCMV) major histocompatibility class 1 homologue using molecular techniques.
MICHAEL AZARIADIS 9871064	Negotiating Alevi Identity in the Urban Environment of Ankara, Turkey
CHRISTOPHER BELLGARD 9507241	Does the information advantage effect of a new forecasting technique erode when that technique is made public?
JEMMA BERRY 995317X	The evolution and function of candidate disease susceptibility genes in the lower order species <i>Amphioxus</i> and <i>Caenorabditis elegans</i> ; defining their role and relevance to human multigenic diseases
RACHAEL BRAKE 9723252	Recombination based cloning project using state-of-the-art technology (not currently available in Australia) to obtain a series of PAC deletion clones which contain the HOX11 locus, to investigate the regulation of the HOX11 proto-oncogene in paediatric leukemia
GREGORY BRUSH 9659210	The determinants of trust on small business supplier relationships
DAHONG CHENG 9550148	Intellectual perceptions of democracy in the 1985 Tiananmen event
CHRISTINE COOPER 9503313	The biophysical properties of the pelt of the Numbat (<i>Myrmecobius fasciatus</i>) and the role of the pelt in thermo-regulation
PAUL COOPER 9618633	A study of the chemical composition of the icy surface of Ganymede (a moon of Jupiter)
SANDRA CORR 9517392	Causes and history of acidification of Lake Jandabup, Western Australia
BRENDAN CORRIGAN 9861516	Scientific and mythological narratives among East Kimberley Aboriginal people.

MARGO CLARE FERGUSON 972297X	Characterisation and manipulation of genes important for yield and seed quality in lupins
MARIA FRANCHINA 9515276	Development of more effective antiviral agents
JOANNE GALLAGHER 8823169	Baseline of normal infection present in Antarctic penguin populations for use in the implementation of a health monitoring scheme
SHARYN LEANNE GRAHAM 9859824	Not all societies adhere to a principle of only two genders, woman and man, but some societies, such as the Bugis, acknowledge four institutionalised gender categories in addition to a fifth para-gender category the bissu or transvestite priests
DAVIS RHYS GUILFOYLE 9528560	An archaeological investigation of the western Nullarbor region, Western Australia
KATE MELISSA HAMERSLEY 005751X	History of hat making and wearing practices 1788 to 1965
ANDREW HOUSE 9018852	Optimising the geotechnical design of suction caisson foundations for offshore structures
ZAHURUL ISLAM 9971359	Urban growth: A methodology incorporating fuzziness and scale issue for land cover mapping
JOO-VON KIM 9508194	Dynamics of disordered exchange-biased ferromagnet-antiferromagnet systems
JACKIE KING 0056634	Australian and Canadian responses to the 1999 UNHCR request to accept numbers of Kosovar refugees
BELINDA KNIGHT 9310723	The process mediating proliferation of liver stem cells following carcinogenic liver injury
ROMMEL LAN 9305323	Role of protease-activated receptors in airway biology
FANGJUN LI 9947592	Models of pipeline local scour and increase knowledge of physical processes involved in the transport of non-cohesive sediment (sand) under the offshore pipelines

ALEXANDRA LOBB 0062132	International wheat trade and market structure
LAURA LOCHORE 0057552	Renegotiating Indonesia's international relationships in the news media: representations of foreigners
JOHN MAIR 9318303	Genesis and evolution of intrusion-related gold and Ag-Pb-Zn deposits of the Tombstone Gold Belt, Yukon, Canada, as an insight into the genesis of intrusion-related deposits worldwide
KATIE MEEHAN 996082X	The use of proteomics to identify improved navel prostate cancer markers
JANNI MIROSEVICH 9417274	Expression of novel androgen regulated genes during the development and progression of prostate cancer in transgenic mice
RONALD MONSON 882232X	Computer-aided learning in mathematics
JUDITH OWEN 8017643	Satyr plays, homeric epic and Greek tragedy
INDIRA PATTNI 9866772	Application of self-management training as an intervention strategy in enhancing self-efficacy and performance
JANELLE PELHAM 9618641	DNA methylation dysregulation in initiation and progress of neoplasia
JULIANNA PRISKIN 9412156	Assessment of the impact of the February 2000 cyanide spill on nature based tourism in Hungary
STEPHEN QUINTON 9654502	How learning occurs: ongoing proliferation of information and knowledge will necessitate change in learning and thinking strategies
DAVID REDFERN 9114344	Laser beam induced current for quantitative characterisation of HgCdTe infrared detector arrays
SHARON ROUGHTON 9857909	Pathways of apoptosis in the regressing rat corpus luteum
KYLIE SANDY 955383X	The nature of morphological variation in the temporal articular surface and how diet and chewing activity influences this feature in humans and primates.

KELLY ANNE SHEPHERD 8809092	Systematic analysis of the Western Australian subfamily Salicornideae (Chenopodiaceae) using morphological, anatomical and molecular characters to produce a cladistic analysis and a new phylogenetic classification
BONITA THOMAS 9305043	An exploration of gender identity in Martinique and Guadeloupe through the writings of six French Caribbean novelists
CECILIA TOLLET 9867544	The spatial and temporal distribution of GDNF - family ligands and receptors in the fetal mouse of the pulmonary innervation
GIUSEPPE VERDILE 9760520	The role of presenilin interacting proteins, including the novel protein nicastrin, in the processing of amyloid precursor protein, and subsequent beta amyloid production in Alzheimer's disease
MARCUS WATKINS 9760066	A recombinant antibody as targeted gene therapy for treatment of metastatic melanoma
IAN WEIR 9453273	Transformative mappings: linking biologically diverse sites to industrial CadCam processes to produce site-specific architecture.
VERONICA YAO 9608919	Control of inflammation via CNS and endocrine signalling
